

Dear IDEA Regina,

I apologize for not being able to participate in your survey. I am receiving hundreds of emails and requests a day and it has been very difficult to reply all and keep up with a very busy campaign schedule.

I took some time to read the UN

CRPD: <http://www.un.org/disabilities/convention/conventionfull.shtml>

Also, I have read the three recommendations from your April 2012 paper to the AAC. I fully support moving forward on those recommendations. And should I become your next mayor, I am prepared to work with you and other stakeholders to ensure we make important gains in building a more inclusive Regina.

Kind regards,

Meka
